

# Seldat Technology Services Participates in Israel Police Innovation Conference

Jul 24, 2018

The Supply Chain Provider Presented Its Latest Innovative Technologies

**Seldat Technology Services (STS)**, a leading provider of technology-based global supply chain solutions participated in the Innovation Conference for Police in Israel on July 18<sup>th</sup>. The conference was attended by representatives of the Israeli security forces dealing with logistics. Seldat exhibited its latest technology and IT platforms to raise awareness of innovation in the civilian sector as possible logistic resources for the Israel police force.

Chacko Verghese, SVP and Global CTO, STS, presented an inspired presentation "Supply Chain Utopia via Technology." He reviewed today's technology and how it can drive a better supply chain.

“Seldat Technology Services is dedicated to delivering best-in-class supply chain technology solutions readily adaptable for any user including the armed forces and police,” stated Chacko.

STS products include: [WMS360](#), a Warehouse Management System, RFID (radio-frequency identification) automation products, [BPO](#), a Business Process Outsourcing program, DMS, Delivery Management System and more. Its’ highly qualified team of experts were available to discuss these innovative technologies for the supply chain.

There is a huge demand to enable the Israel Police to recognize new technologies that are relevant to improving its’ logistics division's performance in the optimization of work processes including: vehicle fleets, management and maintenance of buildings, safety, supply chain, purchasing, etc.

### **About Seldat Technology Services**
