

Seldat Technology Services Participates in PORT2PORT 2018

May 31, 2018

The Supply Chain Provider Presents Its Latest Innovative Technologies for Supply Chain

Seldat Technology Services (STS), a leading provider of technology-based global supply chain solutions, announced its participation in [PORT2PORT's](#) annual shipping, transport and supply chain convention on June 20th. STS will be in booth Space #45 at the exhibition located in Pavilion 2 Exhibition Grounds, Tel Aviv. Seldat's professional staff will be onsite to provide demonstrations of its newest software solutions.

STS will present products including: [WMS360](#), a Warehouse Management System, RFID (radio-frequency identification) automation products, [BPO](#), a Business Process Outsourcing program, and more. Its highly qualified team of experts will be available to discuss these innovative technologies for the supply chain.

This year the two annual professional sessions, "The Logistics of Tomorrow" and "Logistics – in practice" will be held at the same location as the exhibition. Led by Itzhak Dana, owner and CEO of AGS Logistics, these sessions will feature some of the best logistics personnel, with Daniel Dadoun, CEO, Seldat, participating as a panelist in "The Logistics of Tomorrow". The session will address logistical and strategic issues affecting the performance of Israeli companies and the progression of the logistics field.

Key questions that will be answered during the “Logistics of Tomorrow” session include:

- How current companies deal with substantial logistical expansion
- If IT solutions in Israel proficiently meet business development requirements
- Assessing the easiness of logistics software implementation in Israel
- The impact e-commerce will have in relation to logistics within Israel
- How receptive the Israeli logistics market will be in regards to logistics robotics and automation

About Seldat Technology Services

At Seldat Technology Services (STS), we are problem solvers and efficiency aficionados. Headquartered in New Jersey with offices in Canada, Israel, and Vietnam, our 250+ employees enable business and customer success through technology-driven supply chain solutions.
